

## LPO – Legal Support Services

Centelon provides firms with efficient legal process outsourcing (LPO), delivering a wide range of tailored solutions to meet the client’s specific back office needs. They use artificial intelligence and other technology to ensure the delivery of smart solutions to reduce the cost of many non-core functions. They will provide a consultative approach toward improving your operations with reduced overhead and the timely delivery of your work. Centelon’s legal support services include:

- Contract Abstraction
- Intellectual Property Work
- Know Your Customer (KYC) Documentation
- Legal Transcription and Digitization
- Managed Services
- Due Diligence Review
- Research Assignments
- Data Cleansing and Verification
- Document Indexing
- Word Processing

Centelon legal support teams utilize AI and machine learning solutions to ensure accuracy and efficiency. Automated data extraction facilitates timely processing of information and significant back office cost savings.

Centelon is a global information technology and digital transformation champion that supports its customers in realizing technology’s huge potential for a smarter and more sustainable world. They harness the power of digital, cloud, analytics, and other emerging technologies to help clients adapt to an evolving world. Centelon is a trusted partner of large and mid-size businesses in financial services, insurance, healthcare, manufacturing and other markets. Vesterras LLC is an authorized representative of Centelon services in the United States.
